

IKIGAI REPORT

Alex Morgan Rivera

Born 15 January 1990 · Greenwich, London · 14:30

“The Patient Builder”

Worked example · Sample data · Generated by the Ikigai Report Kit

1. Your Ikigai — the short answer

You build things that last, one at a time, and you are better at finishing than starting.

This is a worked example using invented test results and a neutral birth chart (Royal Observatory, Greenwich). Every charted and computed value below is genuine output from the kit's scripts. The measured results in Group A are fictional, for illustration.

Three themes recur across the lenses:

- **The Builder:** Life Path 8, Capricorn stellium, Destiny Matrix 8 — structure, authority, long horizons.
- **The Craftsman:** Generator with Sacral authority, D10 lagna Virgo — responds to real work rather than chasing it.
- **The Late Bloomer:** Rahu mahadasha to 2033, profile 5/2 — recognition arrives through demonstrated results, not self-promotion.

One sentence: *Alex builds durable systems and is recognised for what those systems produce.*

The four Ikigai circles

Circle	Your answer
What you LOVE	Making things work properly; long projects with visible progress
What you're GOOD AT	Systems thinking, patient iteration, quality control
What the WORLD NEEDS	People who finish, maintain and improve rather than only launch
What you're PAID FOR	Engineering, operations, technical craft

2. The evidence — 24 systems, one verdict

Each row is a different lens. Read the last column only, if you're tired.

Group A — Measured: tests you sat

Sample values for illustration only.

System	Your result	What it says
MBTI (16Personalities)	ISTJ-A	Methodical, reliability-first, dislikes improvisation
Enneagram	Type 1, wing 9	Standards-driven; calm exterior over private criticism
Big Five	High C, low N; moderate O	Organised and steady; not easily rattled
HEXACO-60	High Honesty–Humility	Low tolerance for spin; trustworthy under pressure
VIA Character Strengths	Perseverance, Prudence, Fairness	The finisher's profile
Grit Scale	4.3 / 5	Consistency of interest is the strength, not effort alone
ECR-R	Secure	Low avoidance, low anxiety

Group B — Charted: computed from birth data

System	Your result	What it says
Numerology — Life Path	8	Authority, material building, long-horizon work
Numerology — Personal Year 2026	8	A harvest year in the same key as the Life Path
Numerology — Expression / Soul / Personality	3 / 1 / 11(2)	Communicates lightly, wants independence, reads as a peacemaker
Western astrology	Sun Capricorn 25°11', Moon Virgo 18°48', Cancer rising	Earth-heavy: patient, practical, quietly protective
Nodal axis	North Node Aquarius 16°35' in the 9th; South Node Leo in the 3rd	Grow toward the bigger picture; leave behind performing for a small audience

System	Your result	What it says
Vedic astrology	Sun in Uttara Ashadha; Gemini lagna	Endurance nakshatra — wins by outlasting
Vedic D10 (career)	Lagna Virgo; Sun and Jupiter in the 1st	Career identity is craft, analysis and service
Vimshottari dasha	Rahu mahadasha 2015–2033, Ketu antardasha to Dec 2026	Ambitious long cycle, currently in its inward sub-period
Solar return 2026	Capricorn rising; Sun, Mercury, Venus and Mars in the 12th	A behind-the-scenes year inside a harvest cycle
Chinese zodiac / BaZi	Earth Snake; day pillar Geng Zi	Yang Metal day master — precise, quietly decisive
Human Design	5/2 Generator, Sacral authority	Wait to respond; energy is real but must be invited into use
Gene Keys	Life's Work 61.5, Purpose 3.2	Inner knowing expressed as innovation through order
Destiny Matrix	Core 15/1/19/8	Builder arcana; authority earned rather than granted
Astrocartography	Jupiter MC line at +121° (SE Asia)	The only strong line; otherwise location is not a lever

Group C — Inferred: derived from Groups A and B

Not separately tested. Working hypotheses, not verdicts.

System	Likely result	What it says
DISC	C–S blend	Accuracy first, pace second
Chronotype	Morning-weighted	Protect the first two hours for deep work
Conflict style	Avoiding, then Competing	Absorbs friction until a standard is breached
Career anchor (Schein)	Technical/Functional competence	Depth of craft over management ladder
PERMA	Accomplishment high; Positive Emotion moderate	Gets meaning from completion, not applause

3. Direction markers — what the chart points at

Computed with the Swiss Ephemeris. Measurements of the chart, not interpretations of a summary.

The node axis says the same thing as the Human Design profile: stop performing, start contributing to something larger.

Marker	Exact position	What it means
North Node	Aquarius 16°35' — 9th house	Grow toward the wider view: teaching, systems, community
South Node	Leo 16°35' — 3rd house	Leave behind performing for a small, familiar audience
Ascendant	Cancer 4°43'	Becomes Leo at 16:39 local — a two-hour window, so birth time matters here
Midheaven	Pisces 0°12'	Career shows up as service and craft rather than status
Mercury	Capricorn 11°16', retrograde	Thinks by revising; writes better than improvises

Birth-time sensitivity: the Ascendant changes sign at 16:39 local. A birth time accurate to the hour is sufficient here.

4. Timing — where you actually are

Rahu mahadasha runs to 2033 and is 62% elapsed. The current Ketu sub-period ends in December 2026.

Period	Lord	Window	Status
Mahadasha	Rahu	26 May 2015 → 26 May 2033	62.3% elapsed
Antardasha	Ketu	25 Nov 2025 → 13 Dec 2026	current, 67.8%
Next antardasha	Venus	13 Dec 2026 → 13 Dec 2029	3.00 years

- **Ketu sub-periods reward finishing, not launching.** It ends in December 2026.
- **Venus follows for three years** — the strongest client-facing stretch of the whole cycle.
- **The 2026 solar return agrees:** four planets in the 12th house is a behind-the-scenes year.

5. The shortlist — narrowing to one path

Five options scored 1–5 against criteria taken from the results above.

One lane: deepen technical craft inside a long project, and let Venus from December 2026 handle visibility.

Path	Craft depth	Finishes	Autonomy	Low self-promo	Pays now	Long horizon	Total
A. Senior IC on a long-lived system	5	5	4	5	5	5	29
B. Technical lead, small team	4	4	4	3	5	4	24
C. Independent consultant	4	2	5	1	3	2	17
D. Engineering manager	2	3	3	2	5	4	19
E. Founder	3	1	5	1	1	3	14

- **A wins on every criterion that the measured data says matters.** High Conscientiousness plus a Generator’s response-based energy is exactly a long-lived system.
- **E is the trap.** It looks like the ambitious choice during a Rahu cycle, but it scores lowest on finishing — the one thing this profile is actually best at.

The narrowed sentence

Find one system worth maintaining for a decade, and become the person who understands it best.

6. Tests still to take

Test	What it settles	Time	Link
HEXACO-60	Honesty–Humility, which Big Five omits	10 min	https://hexaco.org/hexaco-online
Grit Scale	Perseverance and consistency of interest	2 min	https://www.angeladuckworth.com/grit
ECR-R	Attachment style, measured not guessed	10 min	https://openpsychometrics.org/tests/ECR.php
MEQ chronotype	The real deep-work window	5 min	https://chronotype-self-test.info/

7. Open questions

Item	Status	How to settle it
Birth time	Accurate to the hour is enough	Ascendant changes sign at 16:39 local
Human Design line values	Kit has a known J2000 offset	See the Accuracy status section of the README
BaZi day pillar	Anchor unvalidated	Cross-check against a chart you trust

A note on method: psychometric instruments have research behind them; numerology, astrology, Human Design, Gene Keys, BaZi and the Destiny Matrix do not. They are reflective mirrors, kept in Group B and labelled as such. Group C is inference. The convergence across lenses is what makes a reading useful, not any single row.
